## Lucid Metal

**PRODUCT NAME:** Lucid Metal  
**Architectural Rendering**  
**PRODUCT FEATURES:** Pre-visualisation is a vital part of any design process. Be it to refine the design process, or to market to clients before the project has been completed. Using state-of-the-art modelling and rendering software, Lucid Metal can produce large format, hi resolution, photorealistic digital images for marketing, council submission or any presentation. Provide us with plans and elevations and you will receive a no-obligation, same day quote. Taking your plans, elevations and sketches, we will build, texture and render your project always delivering on time, on budget, and above expectations. Until the end of August we will beat any quote you provide us with by 10 percent. \*Conditions apply, please see website for details.
