Schiavello QLD 20 Year Anniversary Function

Schiavello QLD celebrated 20 years of operation in the far northern state with an exclusive function at the Brisbane showroom on Friday evening, 29 May 2009 for approximately 250 people.

The theme of the function was 'relationships', where Schiavello QLD used the occasion as an opportunity to say 'thank you' to their many valued corporate clients and members of the A+D community who's support, friendship and collaboration has made the past 20 years possible and highly successful.

Schiavello QLD Systems, Construction and Prima teams played host to the event, with Tony and Peter Schiavello and other members of management; Raffaele Tigani and Richard Halasa flying up for the occasion.

Tony Schiavello opened the evening with a heart warming speech which was well received by all. Later in the evening, Schiavello QLD Systems Manager, Marie Koklas, reflected on their first year in Queensland where many clients were cautious of new companies entering the market, especially during a time of economic uncertainty. A common statement she remembers hearing from prospective clients was; "If Schiavello is still around next year, come and see us then". Well they certainly were around next year, and are still very much around 20 years on.

Delicious catering was supplied by Joseph Alexanders' award winning 'Best Restaurant', while a 'flare' cocktail waiter dazzled guests with his bottle and glass throwing skills.

Entertainment included musical offerings from a cellist and a violinist, and a caricaturist who was a hit with his sketches of guests and staff. A remedial therapist was also present, offering guests head and neck massages.

The event was a huge success with people almost having to be evicted at the end of the night and all were impressed with their gift of Gioiello wine.
