Michael McCann, Dreamtime Australia Design

### *features*

2am Lockout Trial, Disco Supremo

It's less of a seat, and more of a "modular seating platform", says designer Ivan Woods from Schiavello, of his **Tangier** product. We think he means that it works well in freeform spaces such as outdoor or indoor lounge areas, where groups of varying sizes are apt to drag them about and colonise different seating arrangements – some even using it as a table. Being lightweight, durable and wipe cleanable, Tangier is ideally suited for the purpose. It is constructed from "virtually indestructible", 100 per cent recyclable, rotomoulded polyethylene and is available in a range of non-fade contemporary colours. It measures 1,180mm (l) x 500mm (h) x 450mm (d).
