IVAN WOODS

Schiavello and Ivan Woods have a long history.

Our collaborative design process, which has evolved over many years, has yielded distinctive collections such as the Kayt and Toro collections.

Ivan enriches his designs’ emotional qualities through fine detailing, influenced by a strong architectural sensibility and carefully considered geometry. The unique combination of individual and robust personalities in his products results in a unique outcome that has lent his products to a diverse range of scenarios.

Ivan grew up in Australia and studied interior architecture in Perth. Having designed interiors and products for over 30 years, he has created work for the Langham and Marriot hotels as well as international projects spanning the UK, US, Germany and Italy.

Softly sculptured lines define Paloma's form, sweeping upwards from the gently angled arms through to the statuesque back

Striking by design, the Paloma chair embodies style and sophistication, cradling the user within its embrace for a relaxed yet refined addition to the home, waiting room, lounge or study.

A double zip detail at the rear further emphasises its sculptural qualities. This is a chair that announces itself in any setting, and then invites you to be enveloped in its comfort.

The range is composed of two typologies: a fully enclosed, upholstered form on a 360° black painted steel swivel base, and

a five star cast aluminium swivel base with a polished or powder coat finish. Each is available in a high, medium or low back variant in premium leather with the option of contrast stitch detail or fabric.

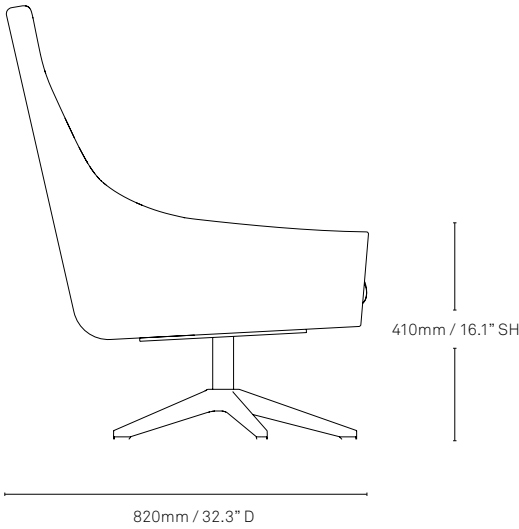

The chair's large footprint reflects the trends of workplaces leaning toward the blurring of work and the home. Paloma's generous, soft and comfortable seat and back allows the user to feel at home.

ColourLab

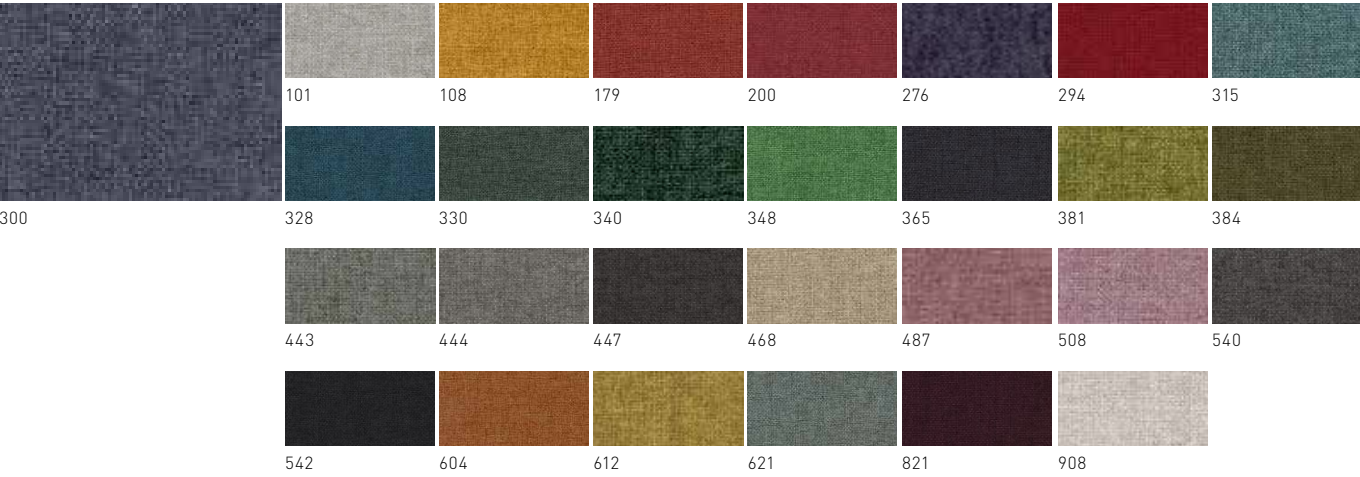

Schiavello’s innovative ColourLab brings a considered and cohesive palette of finishes to working and living spaces. Curated by Giulio Ridolfo and developed by Schiavello, the new palette beautifully balances colour, texture and layering across a variety of materials.

Ecology and sustainability

Schiavello's most important commitment to sustainability is the company-wide Environmental Management System under ISO 14001. The environmental design principles realised means we design for the environment, focusing on efficient energy use and minimum emissions, longevity and durability, re-use and recycling of our products.

Our principles of ME WE (Materials, Energy, Waste Emissions) give us a simple way to think how our operations impact the environment.

Printed on an Australian made paper stock that is PEFC Certified and made from elemental chlorine free bleached pulp sourced from sustainably managed forests and non-controversial sources. It is manufactured by an ISO 14001 certified mill using renewable energy sources.

About Schiavello

Schiavello is a multi-disciplinary company dedicated to developing intelligent, inspiring, ecological and resilient solutions for the office, the home and public spaces.

Schiavello's concepts and products are developed in Australia by applying a design process that brings together the company's core design principles and engineering with the creativity of local and international designers.

The Schiavello Head Office and manufacturing facilities are integral elements of the Schiavello Philosophy. They provide the opportunity to develop a rich tapestry of knowledge that ultimately informs the right solutions and tools for an organisation and its people.
