Scope

technical

Scope

A flexible and functional addition transforming your desk into a workstation capable of supporting today's varied roles.
Scope brings together a range of accessories based around a central mounting rail. Trays, shelves, panels and modesty's all form a part of the Scope solution.

Index

Accessory rail
single sided

Accessory rails are supplied in a range of lengths and are available in the Schiavello ColourLab range of metal powder coats. Accessory rail brackets are designed to suit 25 mm worksurfaces and are included with each rail. Accessories can clamp to the sides or bottom of the rail and panels can be inserted into the top.

The rail mounts via brackets to the worksurface. The brackets clamp to the underside, transom section of the accessory rail and can slide along the rail before being locked in place. The brackets can also be inserted mid rail and do not need to be fed from an end.
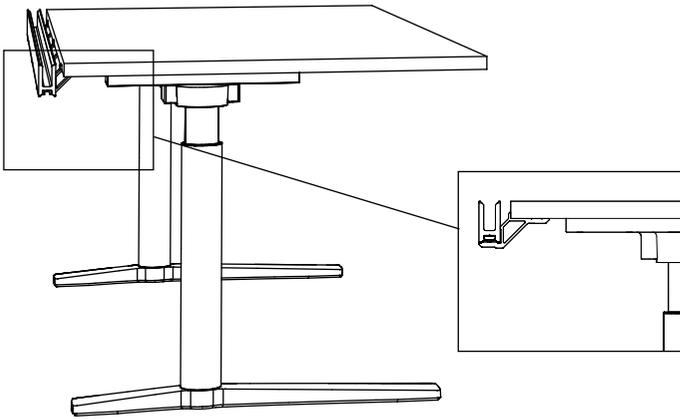

Single sided rails can be used with fixed height or height adjustable desk bases. Single sided rails will move with a height adjustable worksurface.

* 15 mm gap provides enough room to be able to fit desk clamp monitor arms and above desk Lettric power outlets.

Accessory rail

bridge mounted accessory rail **I** horizontal accessory rail
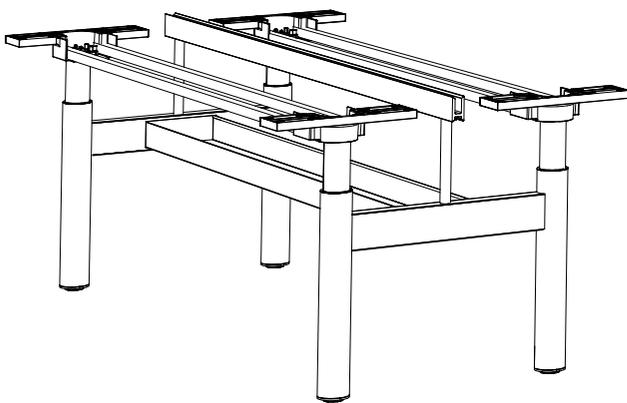

Bridge mounted accessory rail attaches to Krossi or Centric bridges allowing back to back height adjustable desks with one fixed height panel between them. Rail do not attach to the worktop and do not require rail worktop brackets.

The understructure of Krossi and Centric must be specified at the time of order for bridge mounted accessory rails. The length of the rail must match the length of the desk/base.

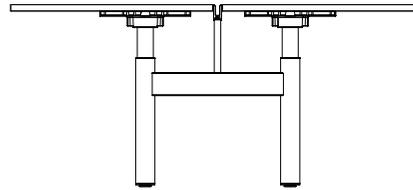

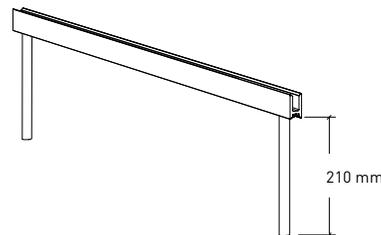

Accessory rail supported by post attached to the Krossi bridge

ACCESSORIES

Comprising of shelving solutions, privacy panels and electricals for above and below the worktop, the sleek and lightweight design of Scope avoids the dominating aesthetics linked to systems panels and boosts functionality by giving users freedom to maximise valuable desk real estate.

Accessories can be mounted directly to the work surface via a clamp end or to the accessory rail via a rail end.

HORIZONTAL ACCESSORY RAIL

Power coated Horizontal Accessory Rail is available in 400 mm or 600 mm long and 140 mm or 250 mm high from work surface. Schiavello Bento trays are compatible with this rail.

Accessories
privacy panels

Scope supports a range of above and below workstation privacy panels.

The 12 mm privacy panels are available in MDF, P.E.T, perspex and glass. They have a maximum height of 400 mm and are supported by the accessory rail and panel holder.
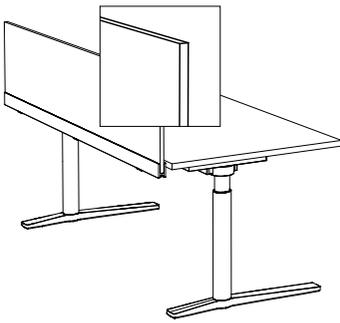

Privacy panels are available in the Schiavello ColourLab range.

There are 2 corner options; square or round with a 50 mm radius. The panel length does not need to match the length of the accessory rail.
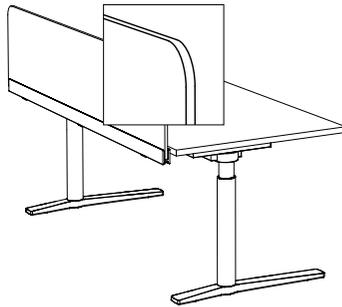

The panel holder is supplied full length for P.E.T panels and in 60 mm pieces for MDF, glass and perspex. Panel holder are spaced along the bottom of the panel and then inserted into the accessory rail.

General
Scope is a refined desk accessory system designed and manufactured by Schiavello in Australia.

System features include:
- Strong powder coated aluminium accessory rail attached to the back underside of the desk
- A range of functional and attractive powder coated metal shelves and Horizontal Accessory Rail
- Shared between two desks or an individual application
- Suitable for use on fixed height and height adjustable desking
- Compatible with Krossi, Centric, Marina, Elitone, Series 2 freestanding desks and others
  (Please contact Schiavello for full details)

Cable reticulation
Scope supports Lettric softwiring.
The softwiring electrical system is Schiavello Lettric, certified to Australian Standard AS/NZS 3131.

Panels
Scope can accommodate a variety of 12 mm and 16 mm panels.

Finishes
All aluminium is powder coated to Australian Standard AS 3715-2002 in a range of standard or custom colours.
All metal components are powder coated to Australian standard AS4506 2005 in a range of standard or custom colours.

Sustainability
Scope is manufactured in accordance with international environmental standards: ISO 14001.
All components are either reusable or recyclable.

Warranty
Scope is covered by a minimum five year warranty against faulty materials and workmanship. This includes a guarantee to all standard parts, components and service for a period of no less than 10 years from date of installation.
