DOSHI *LEVIEN*

Founded by Nipa Doshi and Jonathan Levien over 10 years ago, Doshi Levien is an internationally acclaimed design studio based in London.

Nipa’s work is strongly influenced by her upbringing in India, where she began to explore the link between craft, design and cultural identity, while Jonathan trained in fine cabinet making before perusing industrial design.

The pair has designed a variety of successful products for Schiavello, including the Parley and Goodwood tables in 2015, and OTM table in 2014.

OTM (On The Move) is a mobile and height adjustable table. Ideal for solo work on a sofa or as a side table, OTM holds a laptop and books securely, comfortably allowing for spontaneous pop-up meetings and focused work at home and in the office.

With the rise of agile workplace methodologies, Schiavello's research hub observed that work styles were drastically changing and the future workplace was moving towards one of flexibility. Based on this knowledge, a brief was generated to develop opportunities for people to work within alternative spaces, liberating them from traditional and constrictive modes of working.

In response to this brief, Doshi Levien designed OTM for Schiavello, a thoughtful and pragmatic design. OTM is a mobile, height adjustable and versatile table that is a practical accent for office and home enclaves. It is a thoughtful outcome well

suited to transitional spaces – a design first approach that is ideal for living and breakout areas, collaboration and retreat zones.

Weighing just over 8kg, yet able to carry 20kg, OTM features a 6mm thin aluminium surface and is finished with a robust powder coat, available in a variety of colours from the ColourLab range. An effortless 'twist grip' mechanism allows the user to adjust the surface height from 580–780mm to suit a variety of positions and working modes.

OTM is a modern, flexible and thoughtful addition to both home and office environments.

ColourLab

Schiavello’s innovative ColourLab brings a considered and cohesive palette of finishes to working and living spaces. Curated by Giulio Ridolfo and developed by Schiavello, the new palette beautifully balances colour, texture and layering across a variety of materials.

Ecology and sustainability

Schiavello's most important commitment to sustainability is the company-wide Environmental Management System under ISO 14001. The environmental design principles realised means we design for the environment, focusing on efficient energy use and minimum emissions, longevity and durability, re-use and recycling of our products.

Our principles of ME WE (Materials, Energy, Waste Emissions) give us a simple way to think how our operations impact the environment.

Printed on an Australian made paper stock that is PEFC Certified and made from elemental chlorine free bleached pulp sourced from sustainably managed forests and non-controversial sources. It is manufactured by an ISO 14001 certified mill using renewable energy sources.

About Schiavello

Schiavello is a multi-disciplinary company dedicated to developing intelligent, inspiring, ecological and resilient solutions for the office, the home and public spaces.

Schiavello's concepts and products are developed in Australia by applying a design process that brings together the company's core design principles and engineering with the creativity of local and international designers.

The Schiavello Head Office and manufacturing facilities are integral elements of the Schiavello Philosophy. They provide the opportunity to develop a rich tapestry of knowledge that ultimately informs the right solutions and tools for an organisation and its people.
