

Marina Fold

Responsive and Mobile

Echoing the elegantly shaped legs known to the Marina Collection, Marina Fold offers a sleek solution that will complement any environment. Light weight and extremely mobile, Marina Fold is capable of adapting to the changing needs of dynamic work environments, supporting various work place scenarios such as impromptu meetings, touchdown space, training sessions and collaborative conferences.

With a highly engineered tilt mechanism Marina Fold allows for an effortless and smooth transition between a functioning table and the stored position. When folded its slender form allows for easy movement between aisles, doorways and elevators.

The safe multi-stacking ability requires minimal storage space so it can be pushed to the edge of the room when not in use or simply stored away in a convenient location.

Design and Range

Marina Fold's well engineered structure allows a great range of table sizes, from 1600mm to 2400 mm long, and uniquely from 750 mm to 1100 mm wide, with the addition of two folding round table sizes to complete the range. Cable reticulation and power/data capability, along with

modesty panels and table connectors are available as optional. Marina Fold offers a sleek solution that will complement any environment in a range of worktop colours and finishes, including veneer or powder coat.

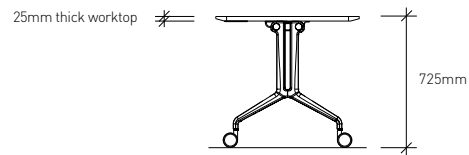

Optional features include (a) cable reticulation (b) table connector and (c) modesty panel

Marina fold table specifications

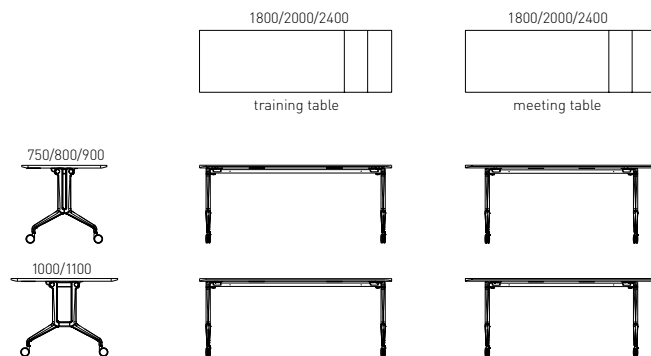

mobile | fixed with toe pad

FINISHED HEIGHT

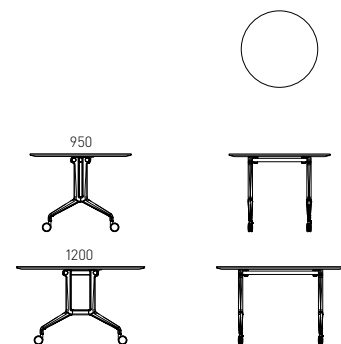

All tables are nominally 725 mm high and include a floor levelling feature.
