HAND SANITISER STAND

schiavello

SCHIAVELLO
DESIGN STUDIO

Led by Design Director Anton Schiavello, the Schiavello Design Studio is made up of a number of multi-disciplinary designers and makers with expertise in industrial design, fashion design, engineering and medical design. With varying strengths and specialties, the team collectively shares experiences from in and around the furniture industry and brings its expertise to newly developed Schiavello products.

Maintaining thoughtful, innovative and research-driven outlooks on design trends, the Schiavello Design Studio has been the driving force behind a number of the company's most successful designs. Some of the team's most notable concepts include Krossi in 2013 – the first and only Australian made and designed sit/stand desk – and the pioneering Climate workplace system in 2010, which is still one of the most malleable products of its kind. In addition, the studio continues to develop Schiavello's furniture offering, catering to changing typology trends, business and people needs and technology requirements, while maintaining product quality, longevity, effortless visual appeal and environmental sustainability.

The Hand Sanitiser Stand is a freestanding, touch-free solution for dispensing hand sanitiser. Its flexibility and refined design allow for seamless integration into any space.

The Hand Sanitiser Stand was designed in response to the immediate need for increased hand hygiene throughout the community.

The automatic, battery operated design is not only hygienic; it also provides users with a greater level of comfort with its hands-free design.

The drip tray intergration allows for easy clean up with no mess left behind. The stand offers versatility as it can be placed and relocated as desired with flexibility being the core of the design.

A selection of powder coat colours from our Colour Lab palette allows for seamless integration into any space.

FEATHERSTON

ColourLab

Schiavello's innovative ColourLab brings a considered and cohesive palette of finishes to working and living spaces. Curated by Giulio Ridolfo and developed by Schiavello, the palette beautifully balances colour, texture and layering across a variety of materials.

Ecology and sustainability

Schiavello's most important commitment to sustainability is the company-wide Environmental Management System under ISO 14001. The environmental design principles realised means we design for the environment, focusing on efficient energy use and minimum emissions, longevity and durability, re-use and recycling of our products.

Our principles of ME WE (Materials, Energy, Waste Emissions) give us a simple way to think about how our operations impact the environment.

Printed on an Australian made paper stock that is PEFC Certified and made from elemental chlorine-free bleached pulp sourced from sustainably managed forests and non-controversial sources. It is manufactured by an ISO 14001 certified mill using renewable energy sources.

About Schiavello

Schiavello is a multi-disciplinary company dedicated to developing intelligent, inspiring, ecological and resilient solutions for the office, the home and public spaces.

Schiavello's concepts and products are developed in Australia by applying a design process that brings together the company's core design principles and engineering with the creativity of local and international designers.

The Schiavello head office and world-class manufacturing facilities are integral to our continually developing rich tapestry of knowledge. This knowledge ultimately assists us in informing the right solutions and tools for each organisation's needs and people, allowing us to consistently achieve our philosophy that 'Anything is possible'.
