BUILD YOUR IDEAS.

PIXEL may look like a box but it can also be a table, a bench, a platform and so much more. PIXEL building blocks ensure that you can flexibly shape space to support a number of different team tasks.

PIXEL brings a new dimension in team working and meeting culture to the workplace, creating playground-like spaces that encourage lively group dynamics and creativity.

CONCEPT: Didi Lenz
DESIGN: Christian Horner

PIXEL Soft Pad:
Comfortable seat pad.

PIXEL Tray:
Connecting element and storage.

PIXEL Pod:
½ PIXEL Box

Glides:
Provides stability when stacking.

PIXEL Pad:
Simply place on top and you have a comfy seat.

PIXEL Top:
Closes the boxes and provides a surface.

PIXEL Box:
Made from pine plywood and available with or without storage openings.

Carry handles:
Can also be used to connect two boxes together.

PIXEL Wheel Tray:
Baseplate on castors.

Swivel castors:
With clamps.

FRAME_S Board:
H-Type with PIXEL transportation platform.

PIXEL Top 180:
a functional board that can connect up to 5 boxes, providing a surface.

FRAME_S Boards support PIXEL by offering vertical work surfaces, be it digital or analogue. As a room divider on wheels, it can be easily moved to wherever you need it, as well as provide a practical storage solution.

PIXEL TOWER.

PIXEL offers a variety of possible arrangements. The PIXEL Tower comprises a basic set of PIXEL Boxes, Pods, Tops, Trays and Pads which can serve to create a variety of settings. The separate elements can be stacked onto the practical PIXEL Wheel Tray, for easy, convenient storage and transport.

PIXEL YOUR OFFICE.

In co-working spaces, start-ups and team spaces, a “hands-on” approach is the norm. When movers and shakers get together, work spaces have to adapt quickly to different needs.

With PIXEL this can be done in just a few easy manoeuvres: shelves become a workbench, and seating becomes a lectern.

PIXEL Boxes can be put together to make various different pieces of furniture. Whether it's a table, storage units or seats that you need – PIXEL is ready for anything and always adaptable.

WORKSHOPS IN WORKFLOW.

Particularly during workshops, it is often necessary to change the spatial environment.

PIXEL enables you to quickly and easily reshape the spatial setting to meet your requirements. This is not only incredibly practical, but helps to clear the mind.

1.

DO-IT-
YOURSELF

3.

2.

1. **DISCOVER &
ANALYSE**

View, sort and interpret facts relevant to the task. Divide results into solution categories.

2. **CREATE**

Develop ideas, experiment and create solution models.

3. **SHARE**

Present suggestions for solutions and to generate feedback.

PIXEL YOUR SHOP.

From pop-ups to complete concept stores, **PIXEL** is the ideal multi-functional modular furnishing system. **PIXEL** shelves, tables and stools create flexible options for design and layout in retail spaces and cafés.

PIXEL's natural, untreated surfaces are eye-catching, without diverting customers' attention from what's really important.

PIXEL YOUR EVENT.

For events, **PIXEL** can be used to make a bar or a DJ desk, a high table or seating. With **PIXEL**, it's easy to create whatever settings you need: it can be assembled, disassembled or modified by hand in just a few quick movements.
