THE SIDE TABLE TAKING CENTRE STAGE

// TANGO'S LIGHTWEIGHT AND COMPACT SIZE MAKES IT EASY TO MOVE AROUND AND CONFIGURE

// TANGO, A STYLISH COMPANION PIECE FOR ANY LOUNGE SETTING

Named after the popular dancing style where dancer's movements are intimate and dynamic, Tango table similarly embraces the users desires and enables multiple formations. Light and elegant, Tango's angled leg frame and slender tops define its airy aesthetic and sense of movement.

"I wanted to create a table that could embrace endless possibilities and work as a companion piece for any lounge seating elements that require a highly portable and configurable table," explains Australian designer, Ivan Woods. "Tango's geometric aesthetic provides an elegant arrangement and can be nested together to create layers and impart visual rhythm to the environment it resides."

A spontaneous, multipurpose table ideal for the home, office, café or retail space, Tango's lightweight and compact size makes it easy to move around and configure. Available in two top sizes and two heights, Tango can operate as single units or pushed together to form larger surfaces.

These useful little tables are available with an American oak veneer, leather or powder coated top and are complimented with powder coated legs. By unifying the colour of the base and top or choosing contrasting finishes, a stand alone table can have a refined appearance, or a gathering of nested tables creates an interesting composition.

IT TAKES TWO OR MORE TO TANGO

// PLANT YOUR TANGO ANYWHERE

// WELL SUITED FOR THE GREAT OUTDOORS

Proudly made in Australia, Tango features a slender 5 mm thin aluminium top coupled with an 8 mm wire frame base that uses minimal material while retaining strength. Well suited for social events, assemble a colourful mix and deck them out on your poolside or the porch.

The Tango table top comes in either metal powder coat, hand stitched leather hide or American oak veneer finished in natural or walnut stain and a selection of colourful washes from the ColourLab Palette.

The legs of the Tango are finished in a selection of vibrant metal powder coats from the ColourLab range. Designed for contemporary commercial and living environments, the ColourLab Palette was developed by Giulio Ridolfo for Schiavello.

ABOUT

// DESIGNER, IVAN WOODS

IVAN WOODS

Schiavello and Ivan Woods have a long history. Our collaborative design process, which has evolved over many years, has yielded distinctive collections such as Kayt Village, Bomba sofa and the Toro collection. With a strong architectural sensibility and carefully considered geometry, Ivan Woods enriches his design's emotional qualities in the fine detailing. The combination of individual and robust personalities in his designs has a unique outcome that has lent his products to a diverse range of scenarios. Woods grew up in Australia and studied interior architecture in Perth. Designing interiors and products for over 30 years, Woods has created work for the Langham hotel and Marriot hotel and on projects internationally spanning the UK, US, Germany and Italy.

SCHIAVELLO

Schiavello is a multi-disciplinary company dedicated to developing intelligent, inspiring, ecological and resilient solutions for the office, the home and public spaces. Schiavello's concepts and products are developed in Australia by applying a design process that brings together the company's core design principles and engineering with the creativity of international designers. Internationally renowned for the design and manufacture of furniture, the company is also one of Australia's most respected interior construction specialists. As a property developer, Schiavello has held a strong passion for creating world class property and contributing to the future of Australia's great cities.
